Why You Shouldn't Buy a Stand-Alone 360

The ultimate objective of most 360-degree feedback programs is to successfully change behavior leading to increased effectiveness. Achieving this objective requires three conditions: enlightenment, encouragement and enablement. A 360-degree feedback assessment provides insight and enlightenment. But, without the other two, you won't demonstrate sustained and successful behavior change.

Envisia Learning's much acclaimed Talent Accelerator is an online goal setting and learning transfer system that provides the missing elements – a platform for guided goal setting, on-going reminders about progress, competency based resource library, and an evaluation of effectiveness called ProgressPulse. It has proven to increase success of a behavior change program by up to 150%.

Talent Accelerator is available with any Envisia Learning assessment – including those that are custom designed just for you. Before you buy any 360-degree assessment, be sure to learn more about how Talent Accelerator translates insight into increased effectiveness and greater ROI for your program.
